HOW TO INSTALL THE INTELLIFLO3™ VARIABLE SPEED AND FLOW PUMP WITH THE PENTAIR PRO APP

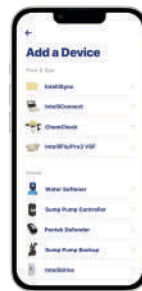

To install the IntelliFlo3, go to your Pentair Pro app account and complete the following steps:

Under **Installed Devices**, select the **+** button to add a device.

Select **Continue Installation**.

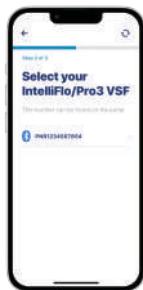

Select **IntelliFlo/Pro3 VSF** under **Add Device**.

Select **CONTINUE**.

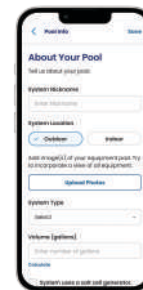

Press **Connect** at the pump. When the Connect button blinks blue, press **Continue** on the phone screen.

Select the Pool Pump Bluetooth device number. The PNR number matches the ID on the pool pump.

Select **Continue**.

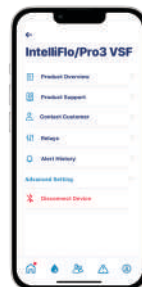

Provide device location and invite the customer. They will receive an email invite to install the Pentair Home app. Once they install the app, they will be able to see the settings you've established.

Name the device something specific for the property of the product.

At the top of the screen, you will see the device's name with the Bluetooth symbol. You can begin setting schedules, relays and more.

When you have completed the installation, go into Settings by selecting the gear icon in the top right corner. Then at the bottom, select **Disconnect Device**.

*Each employee will need their own Pentair Partners account to allow pool owners to find their pool company and get remote monitoring access.
